**The aim of the company is to provide a hungry man with food.**

- Company "SKONIO PASLAPTIS" UAB produces frozen semi-products (-18°C). "SKONIO PASLAPTIS" UAB was established in 1994. At first the company produced traditional grated potato dumplings. In 2002 reorganisation of the company took place and the company expanded the range of its production. At present the company produces frozen dumplings stuffed with meat, dumplings, potato dumplings, pancakes "Žemaičiai", potato balls, curd dumplings, which are popular both in Lithuania and abroad.

- The company tries to be flexible; its products have its name, as well as the names of other companies. The company also has a possibility for producing products according to the clients' needs and the recipes or the packaging provided or even created by them.

- The company carries out and carefully observes the control of the production process and quality. The company has been granted the EU Certificate allowing to export production into EU countries.
